

Index

Symbols

- * (asterisks), 104
- ? (question mark), 104

A

- absolute paths, 126
- accessing Internet, 214
 - hardware for, 215
- account information, 116-117
- account management, commands for, 107
- accounts, 113
 - adding, 118
 - to groups, 134
 - creating for Mandrake, 51
 - group information, 120
 - groups, 115
 - adding, 121
 - passwords, 119
 - forgotten root passwords, 122
 - root accounts, 114
 - types of, 114
 - user accounts, 114
- Acrobat Reader, 226
- adding
 - accounts, 118
 - accounts to groups, 134
 - address cards, 257
 - applications, 146
 - broadband network connections, 218
 - captions to graphics, 169
 - dial-up network connections, 217
 - elements to images with GIMP, 202
 - files to galleries, 171
 - groups, 121
- address books, Mozilla, 256
- address cards, adding and editing, 257
- AIM (AOL Instant Messenger), 258-259
- anatomy of desktops, 77
- Apache, 3
- application-specific files, 125
- applications, 143, 146-147
- archives of pictures, 185

- arguments, 100
- arrays, 279
- associations, changing, 135
- asterisks (*), 104
- audio CDs, playing, 231
- autocorrection, word processing, 163-164

B

- backgrounds
 - changing
 - GNOME backgrounds, 86-87
 - KDE backgrounds, 84-85
 - running commands in, 103
- basename (display filename only), 301
- Bash, 97
- Bayesian spam filter, 255
- binaries, 150
- bitmap, 186
- .bmp, 186
- boot loader screens, Fedora, 39
- booting from CDs or floppies, 29
- Bourne again shell (Bash), 97
- broadband, home broadband, 214
- broadband hardware, 215
- broadband network connections, adding, 218
- browsing with Mozilla, 220
 - tabbed browsing, 223
- bunzip2 (decompress bz2 files), 301
- bzcat (display bz2 files), 302
- bzip2 (compress files), 302
- bzip2recover (recover bzip2 files), 302

C

- cable modems, 215
- cal (displays a calendar), 302
- Calc, 175
 - editing spreadsheet content, 181-182
 - formatting, 178-181
 - formulas and functions, 182-183
 - menus and toolbars, 177
 - printing spreadsheets, 183-184
 - saving spreadsheets, 183

- spreadsheets, creating, 176
 - cameras, digital cameras, 192
 - captions, adding to graphics, 169
 - case statements, 283, 287
 - cat (display files), 303
 - CD Player, 231
 - cdage (change password expiration), 303
 - CDs
 - audio CDs, playing, 231
 - booting from, 29
 - installing software, 148
 - cells, formatting, 178-179
 - changes, tracking in word processor documents, 172-174
 - changing
 - associations, 135
 - file permissions, 133
 - GNOME backgrounds, 86-87
 - image size in GIMP, 200
 - KDE backgrounds, 84-85
 - panels, location and size, 91
 - characters, 296-297
 - checking network connections, 216
 - chgrp (change group), 304
 - chmod (change permissions), 304
 - choosing interfaces, 71
 - chown (change owner), 305
 - clear (clear the screen), 305
 - CLI (command-line interface), 65, 70
 - closing windows, 81
 - cmp (compare files), 305
 - collecting
 - information for installation procedures (Mandrake), 48
 - network information for Fedora, 40-41
 - colrm (remove columns from a text file), 306
 - columns, word processing, 166-167
 - comm (compare two sorted text files), 306
 - command lines, 97
 - editing, 104
 - entering command, 98
 - entering single commands, 99
 - examining files from, 130-131
 - redirecting input and output, 102
 - syntax, 100-101
 - command-line help, 105
 - command-line interface (CLI), 65, 70
 - commandname, 100
 - commands. *See also* Appendix B
 - creating shortcuts for long commands, 101
 - editing commands in vi, 274
 - entering into command lines, 98-99
 - ls, 100
 - Linux commands, 145
 - running in the background, 103
 - useful Linux account management commands, 107
 - useful Linux file management commands, 106
 - useful Linux print job management commands, 107
 - comments, Kate, 270
 - commercial open source software, 3
 - commercial proprietary software, 3
 - commercial software companies, 3
 - Common UNIX Printing System (CUPS), 205
 - compatibility, hardware compatibility (installing Linux), 21
 - component-specific menus, 80
 - computer systems, planning, 24
 - conditional statements, 283
 - conditions, 137
 - configuration files, 125
 - configuration settings, installation procedures (SuSE), 55-56
 - configuring
 - desktops, 82-83
 - multiple virtual desktops, 92-93
 - Mozilla email, 250
 - sound cards, 230
 - SuSE, 61
 - terminal window, 110
 - connections
 - broadband network connections, 218
 - dial-up network connections, 217
 - home broadband, 214
 - home dial-up, 214
 - network connections, checking, 216
 - office LAN, 214
 - content
 - of distributions, 10-11
 - editing spreadsheets, 181-182
 - controlling pop-ups, Mozilla, 224
 - conversations, IM, 262
 - Cooker, 13
 - Cookie Manager, Mozilla, 225
 - copying
 - files, 139
 - music files from CD to hard disk, 242
 - styles to templates, 161
 - copyrights, 4
 - cp (copy files), 307
 - crontab (schedule commands), 307
 - CUPS (Common UNIX Printing System), 205
- ## D
- data, reading into variables, 280-281
 - data files, 125
 - date (displays date and time), 307
 - DEB files, 147
 - Debian, 15
 - DEB files, 147
 - deleting files and directories, 141

- desktops
 - anatomy of, 77
 - configuring, 82-83
 - multiple virtual desktops, 92-93
 - examining files from, 128-129
 - fonts, setting, 88
 - GNOME, 78
 - changing backgrounds, 86-87
 - KDE, 78
 - changing backgrounds, 84-85
 - logging in, 74-76
 - logging out, 94
 - organizing, 90
 - screensavers, setting, 89
 - working on, 80-81
 - developing open source software, 2
 - df (display disk space), 308
 - Dia, diagramming, 194-195
 - diagramming with Dia, 194-195
 - diagrams, 185
 - dial-up connections, downloading Linux, 23
 - dial-up network connections, adding, 217
 - diff (compare two text files), 308
 - diff3 (compare 3 text files, merge files), 309
 - digital cameras, 192
 - dir (list filenames), 310
 - directories, 126
 - creating, 138
 - deleting, 141
 - disk partitions, 26
 - distribution CDs, installing software, 148
 - distribution web sites, installing software, 149
 - distributions, 9
 - contents of, 10-11
 - Debian, 15
 - Fedora Core. *See* Fedora
 - Gentoo, 15
 - Linspire, 15
 - Mandrake. *See* Mandrake
 - MEPIS, 15
 - Red Hat Linux, 12
 - Slackware, 15
 - SuSE, 14
 - Xandros, 15
 - distro. *See* distributions
 - Distro Watch, 15
 - documents
 - creating, 156
 - from templates, 160
 - editing document contents, 162-163
 - file formats, 171-172
 - graphics in, 168-170
 - scanning, 188-190
 - Download Manager, Mozilla, 225
 - downloading
 - Fedora, 12
 - Linux, 23
 - music, 232-234
 - downloads, 250
 - Draw, 196-197
 - drawing
 - with Draw, 196-197
 - graphics, 169
 - drawing object toolbar, 169
 - drawings, 185
 - DSL, 215
 - du (display disk usage), 310
 - dual-boot systems, 24
- ## E
- echo (display text), 310
 - editing
 - address cards, 257
 - command lines, 104
 - content in spreadsheets, 181-182
 - document contents, 162-163
 - files in vi, 272
 - in Kate, 269
 - text files, 140, 267
 - editing commands, vi, 274
 - Emacs, 140
 - email, 245
 - address cards, adding and editing, 257
 - Mozilla. *See* Mozilla
 - reading Mozilla email, 251
 - sending Mozilla email, 252
 - spam, 255
 - email accounts, 246
 - setting up, 248-249
 - email software, 247
 - Emperor Linux, 22
 - end user license agreement (EULA), 4
 - entering commands in command lines, 98-99
 - env (display and set environmental variables), 311
 - escaping the character, 298
 - Ethernet ports, 215
 - EULA (end user license agreement), 4
 - Evolution, 247
 - examining
 - files
 - from the command line, 130-131
 - from the desktop, 128-129
 - hard drives, 26
 - examples, regular expressions, 299-300
 - Excel, 175
 - excluding sets of literal characters, 297
 - extensions
 - file extensions, 135
 - .html, 171
 - .txt, 171

F

- Fedora, 9, 12
 - configuring soundcards, 230
 - downloading, 12
 - features of, 12
 - installation procedures, 33, 45-46
 - collecting hardware information, 36
 - collecting network information, 40-41
 - creating root accounts, 43
 - languages and time zones, 42
 - selecting installation type, 37-38
 - selecting packages to install, 44-45
 - selecting where to install, 38-39
 - starting, 34-35
 - installing printers, 206-207
 - making room for Linux before installation, 28
 - partitioning screens, 38
 - Rhythmbox, 234
 - file (display file type), 311
 - file extensions, 135
 - file formats, graphics, 186
 - file information, 127
 - file management, 125
 - commands for, 106
 - copying, renaming, and moving files, 139
 - creating directories, files, and links, 138
 - deleting files and directories, 141
 - examining files from
 - the command line, 130-131
 - the desktop, 128-129
 - file information, 127
 - file types, 135
 - finding files, 136-137
 - managing owners and groups, 134
 - organization of files, 126
 - permissions, 132-133
 - viewing and editing text files, 140
 - file permissions, 132
 - changing, 133
 - file systems, 126
 - moving through, 131
 - file types, 135
 - files, 109, 125
 - adding to galleries, 171
 - application-specific files, 125
 - configuration files, 125
 - copying, 139
 - creating, 138
 - data files, 125
 - DEB files, 147
 - deleting, 141
 - editing in vi, 272
 - examining
 - from the command line, 130-131
 - from the desktop, 128-129
 - finding, 136-137
 - graphics files, viewing, 187-188
 - image files, 125
 - moving, 139
 - moving around in vi, 273
 - opening
 - in Kate, 268
 - in vi, 271
 - programs. *See* programs
 - renaming, 139
 - RPM files, 147
 - saving with vi, 272
 - text files, 125
 - viewing and editing, 140
 - files systems, moving through, 131
 - find (find files), 312
 - find command, parameters for, 137
 - finding
 - files, 136-137
 - packages on the Internet, 150
 - finger (display user information), 313
 - FIPS, 28
 - Firefox, 225
 - Flash Player, 226
 - floppies
 - booting from, 29
 - creating boot floppies for Mandrake, 29
 - flow control, shell scripts, 283
 - fly-out toolbars, 157
 - fold (break lines at a specified column), 313
 - fonts, setting, 88
 - for loops, 283, 288-289
 - Form Manager, Mozilla, 225
 - formatting
 - cells, 178-179
 - in OpenOffice Writer, 158
 - pages, 180-181
 - formulas, spreadsheets, 182-183
 - frames, word processing, 167
 - ftp (transfer files), 314
 - function bar, 157
 - functions, spreadsheets, 182-183
- G**
- Gaim, signing up for, 261
 - galleries, word processing, 170-171
 - gawk, 140
 - gawk (process text), 314
 - General Public License (GPL), 4
 - Gentoo, 15
 - .gif, 186
 - GIMP
 - adding elements to images, 202
 - creating and opening images, 198
 - layers, 203
 - removing elements from images, 201
