  superinterfaces
declaration, 184
direct, extending classes with, 184
relationship to direct subclass, 185

subpackage, 153
- as package member, 122, 154
  and package observability, 160

subsignature, 224, 225, 268
term definition, 213

subtype
class, of two different parameterizations of
  the same interface, 189

subtyping
- in determining applicability, 442
- in determining applicability, 445

sufficient
- set of synchronization edges
  term definition, 562

super keyword
- accessing
  overridden methods with, 225
  superclass members with, in expression
  evaluation, 438
- binary compatibility considerations, 341
- not permitted in
  class variable initialization, 202
  explicit constructor invocation, 243
  interface field declarations, 265
- permitted
  in instance initializers, 239
  permitted in instance variable initialization, 202

superclass(es)
- See also classes; fields; interfaces; methods;
  packages; subclasses; superinterfaces
- accessing fields with super, expression
  evaluation, 438
- of array is Object, 293
- binary compatibility considerations, 341
  direct
declaration, with extends clause, 184
  of an enum, 251
term definition, 184
- extending classes with, 184
- public, accessing instances of non-public
  subclasses through, 194

superinterface(s)
- See also classes; fields; interfaces; methods;
  packages; subclasses
- binary compatibility considerations, 341, 357
  direct
declaration, with implements clause, 186
term definition, 187
- of interface, declaration, 261
  public, accessing instances of non-public
  subclasses through, 194
term definition, 186

supertype, 63

SuppressWarnings, 89, 280

Sweet, Richard, 7

switch
- block, term definition, 377

switch statement
- See also statements
  definite assignment, 541
  local variable declaration specification,
    impact on, 70
  specification, 377

symbolic references
