

```
#sidebar {  
  float: right;  
  width: 30%;  
  background: #9c3;  
}  
#footer {  
  clear: both;  
  background: #cc9;  
}
```

Figure 8.10 The percentages for columns and gutter could be divided in a two-column layout.

In the preceding rules, we've decreased the width of the content by 5%, and added that same amount as a right margin to set the gutter between columns. Figure 8.11 shows the results, with some additional white space between the content and sidebar.
