

About the Authors

Joseph Lowery's books on the Web and Web-building tools are international bestsellers, having sold more than 300,000 copies worldwide in 9 different languages. He is the author of *Beyond Dreamweaver* (New Riders) and *From FrontPage to Dreamweaver* (Que) as well as the *Dreamweaver MX 2004 Bible* and the *Fireworks MX Bible* series (Wiley). He also co-authored the *Dreamweaver MX Killer Tips* series (New Riders) with Angela Buraglia. As a programmer, Joseph contributed two extensions to the latest release of Fireworks and has many, many extensions available for Dreamweaver. He is also a

consultant and trainer and has presented at Seybold in both Boston and San Francisco, Macromedia conferences in the U.S. and Europe, ThunderLizard's Web World, and Fawcette Publication's WebBuilder. As a partner in Deva Associates, Ltd., Joseph developed the Deva Tools for the Dreamweaver set of navigational extensions. With Edoardo Zubler, Joseph created FlashBang!, Flash navigation for Dreamweaver users.

Eric Ott has more than 10 years of experience as a pioneer in the Web industry. His position at Macromedia as the product manager for Dreamweaver enabled him to define the direction of this highly regarded Web-development platform from its early days. His knowledge and experience in Web design and development have given him strong insight into ways to achieve success on the Web. Eric is currently the President at WebAssist.

About WebAssist

What is your Dream? Code Less. Play More.

You've got a life. Who wants to spend it behind a computer? WebAssist products give you all the functionality, flexibility, and good looks you dream of from Macromedia Dreamweaver tools—without the hassle.

WebAssist.com Corporation is the leading provider of extensions (software add-ons) for Macromedia MX. These products transform complex tasks and coding requirements into a powerful and easy-to-use visual process—proven to save time, effort, and money. WebAssist also offers a complete set of expertise-via-professional services. Dreamweaver integration (extension creation) enables native support for third-party technology and allows businesses to reach a new and expanding market. Custom Web application development combines years of experience with an established methodology to deliver robust, dynamic solutions. WebAssist.com hosts a self-service developer community with more than 100,000 members registered. WebAssist's partners include Macromedia, PayPal, PayDirect, YAHOO!, WorldPay, Interwoven, and Vitria.
