

What makes the Van de Walle series so unique?

The Van de Walle Professional Mathematics Series provides practical guidance along with proven strategies for practicing teachers in three grade bands, K–3, 3–5, and 5–8. In addition to many of the popular topics and features from John Van de Walle’s market-leading textbook, *Elementary and Middle School Mathematics*, this series offers brand-new material specifically written for the different grade levels. The expanded grade-specific coverage and unique page design allow readers to quickly and easily locate information to implement in the classroom. Nearly 200 grade-appropriate activities are included in each volume. The student-centered, problem-based approach will help students develop real understanding and confidence in mathematics, making this series indispensable for classroom teachers!

The readable, user-friendly, completely integrated instructional strategies found throughout the series create a must-have, three-volume reference set.

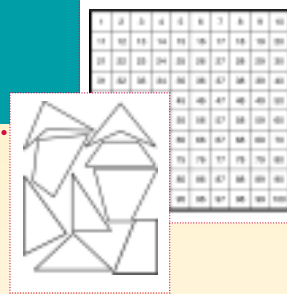

Teaching Student-Centered Mathematics: Grades K–3
©2006 / ISBN: 978-0-205-40843-6 / 0-205-40843-5 / 400 pp

Teaching Student-Centered Mathematics: Grades 3–5
©2006 / ISBN: 978-0-205-40844-3 / 0-205-40844-3 / 416 pp

Teaching Student-Centered Mathematics: Grades 5–8
©2006 / ISBN: 978-0-205-41797-1 / 0-205-41797-3 / 368 pp

The latest math ideas from John Van de Walle include...

- ◆ **Big Ideas** that provide clear and succinct explanations of the most critical mathematical concepts.
- ◆ **Problem-based activities** that provide numerous engaging tasks to help students develop understanding.
- ◆ **Assessment Notes** that illustrate how assessment can be an integral part of instruction.
- ◆ **Expanded Lessons** that elaborate on one activity in each chapter, providing examples for creating step-by-step lesson plans.
- ◆ **A Companion Website** that provides access to more than 50 reproducible blackline masters to utilize in the classroom.
- ◆ **The NCTM Content Standards** for teachers’ reference.

Introducing Teaching Student-Centered Mathematics Series e-Books

Deepen your school or district’s understanding with access to professional development workshops with John Van de Walle without leaving the comfort of your school. The e-Book on DVD corresponds to each printed volume allowing teachers to:

- Observe lessons in action through video.
- Hear John Van de Walle speak about the Big Ideas in every chapter through a series of personal interviews.
- Access tips and activities you can use in your classroom.

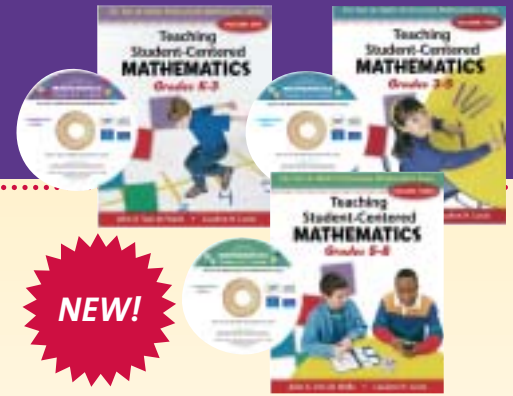

Each e-Book Package includes a Facilitator’s Guide for group study.

About the Authors

John Van de Walle

John Van de Walle's ample and important legacy to the field of mathematics includes, among many other works, a K-6 mathematics series—Addison Wesley Mathematics—published by Scott Foresman, as well as the best-selling college math methods textbook, on which this cutting-edge series is based, *Elementary and Middle School Mathematics: Teaching Developmentally* also published by Allyn & Bacon. Dr. Van de Walle is late of Virginia Commonwealth University.

LouAnn Lovin

LouAnn Lovin is a former classroom teacher and is currently Department Head of Middle, Secondary, and Math Education at James Madison University, where she teaches mathematics methods and mathematics content courses for Pre-K–8 pre-service teachers. She is also involved in the mathematical professional development of in-service teachers working in grades 4–8.

Three easy ways to order the Van de Walle Professional Mathematics Series

1. Contact the publisher

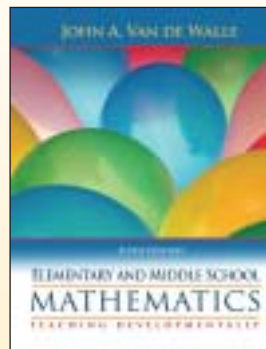

Allyn & Bacon Professional Development
75 Arlington Street, Suite 300
Boston, MA 02116-9753
Phone: 866-346-7314
E-mail: ab.professional@ablongman.com

2. Order online at www.allynbaconmerrill.com

3. If you are a college professor interested in *Elementary and Middle School Mathematics: Teaching Developmentally, 6/e*

please e-mail examcopies@pearsoned.com
or call 800-852-8024

Also available from John Van de Walle

Elementary and Middle School Mathematics: Teaching Developmentally, Sixth Edition

John A. Van de Walle,
Virginia Commonwealth University

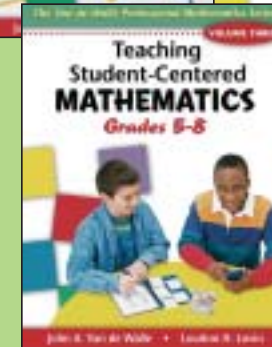

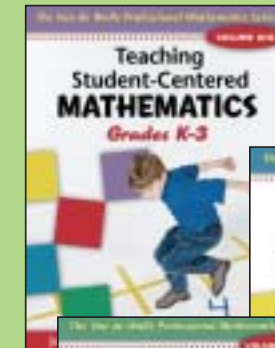

ISBN: 0-205-48392-5
©2007 / Paperback / 576 pp

This best-selling K–8 math methods text has the most coverage of the NCTM standards, the strongest coverage of middle school mathematics, and the highest student approval of any text on the market.

College Professors, contact your local publisher's representative for details! www.ablongman.com/replocator

Teaching Student-Centered Mathematics

John A. Van de Walle and LouAnn H. Lovin

Introducing
e-Books!

“Math makes sense! This is the most fundamental idea that an elementary teacher of mathematics needs to believe and act on.”

—John Van de Walle
