A

adoption through execution, 76-77

mistakes of implementation, big bang training effort, 78

communication, 79-80

lack of setting iterative-based goals for implementation, 78-79

overuse of RUP, 79

process definition, 77-78

adoption versus maturity level, 101

agile alliance, 6

Agile Methodologies, 6

SCRUM, 7

XP, 6-7

analyst reports, ROI assessments, 38-39

areas of improvement, sample ROI assessment, 160

assembling ROI assessment teams, 36

assessments

process of, 33-35

ROI

analysis of key areas where RUP and Rational tools add value, 41-42

financial calculations, 42-46

gathering data, 40

gathering data, interviewees, 40

gathering data, interviews, 40-41

reviewing input options, 36-40
writing, 46-47

start of change, 31

what to assess, 31-33

attributes

people and teams, 84

project attributes, 85

strategy attributes, 84

awareness, techniques for creating when selling

concepts to management/decision makers,

26-27

B

behavior, internal mentors, 143
 Bergstrom, Stefan, 139
 best practices, 20-21
 big bang training effort, 78
 Booch, Grady, 22
 budgets
 communication budget, 126-127
 external mentor group budget, 122
 infrastructure budget, 124-125
 internal mentor group budget, 120-121
 process group budget, 120
 projected IBM Rational License count budget, 123-124
 tool group budget, 122-123
 training curriculum budget, 124-125
 training delivery budget, 125-126

C

calculations, sample ROI assessment, 161-166
 estimated total cost of ownership, 161-162
 centralized implementation team model, 60-61
 change
 convincing people of, 18-19
 management of change, by maturity level, 173-174
 choosing process solutions, 8-12, 14, 16
 COCOMO II, 37
 communication
 implementation mistakes, 79-80
 mass communication, roadmaps, 115-116
 communication budget, inputs to funding model, 126-127
 communication member, ROI assessment team, 36
 continuous team resources, implementation teams, 60
 continuous verification of software quality, by maturity level, 172-173
 credibility, 8, 83

cruise director, ROI assessment team, 36

D

data, gathering for ROI assessments, 40
 interviewees, 40
 interviews, 40-41
 data analysis, assessment process, 34-35
 decentralized implementation team model, 61-62
 discipline specific mentor, 146-147
 discussing key principles, 19-22
 in laymens terms, 21-22
 domain-specific sample artifacts, goals of pilot projects, 90-92
 domain-specific templates, goals of pilot projects, 92

E

Enablement Office, creating, 50-51
 Enablement Office Head, 52-53
 end state, quality and quantity, 100
 implementation issues, 106-107
 maturity levels, 100-105

THIS BOOK IS SAFARI ENABLED

INCLUDES FREE 45-DAY ACCESS TO THE ONLINE EDITION

The Safari® Enabled icon on the cover of your favorite technology book means the book is available through Safari Bookshelf. When you buy this book, you get free access to the online edition for 45 days.

Safari Bookshelf is an electronic reference library that lets you easily search thousands of technical books, find code samples, download chapters, and access technical information whenever and wherever you need it.

TO GAIN 45-DAY SAFARI ENABLED ACCESS TO THIS BOOK:

- Go to <http://www.prenhallprofessional.com/safarienabled>
- Complete the brief registration form
- Enter the coupon code found in the front of this book on the "Copyright" page

If you have difficulty registering on Safari Bookshelf or accessing the online edition, please e-mail customer-service@safaribooksonline.com.
