

This sheet offers waveform representation of a single small Ethernet frame as captured from a 10BASE-T network segment using a digital storage oscilloscope. This waveform may be decoded using the same instructions as those found in Appendix B, "Waveform Decoding Exercise," of the book *Network Maintenance and Troubleshooting Guide*, ISBN 978-0-321-64741-2. The source MAC address in this frame begins with 005004xxxxxx.
