Everyplace Enterprise Edition, 41–42

Exam

- formal education, 17
- IBM Certification Exam testing software, 22–24
- item (question) review panel, 28–29
- objectives, 18, 403–5
- publications, 17–18
- questions on, 23–29
- results panel, 31–32

- sample questions/exams, 18–19
- section scores panel, 32–33

Examples

- CREATE TABLE SQL statement, 349–53
- REVOKE SQL statement, 127

EXCEPT ALL set operator, 266

EXCEPT set operator, 266

EXECUTE privilege, 110, 111

Existing tables, creating tables similar to, 348

EXISTS predicate, 249–50

Explicitly granting authorities/privileges, 116

Extenders, 318

- Audio, Video, and Image Extender, 54
- Net Search Extender, 55–56
- overview, 54
- Spatial Extender, 56
- Text Extender, 54–55
- XML Extender, 56

F

FETCH FIRST clause, 257–58

Fixed-length character string data type, 313

Fixed-length double-byte character string data type, 314

FLOAT, 312

Formal education, 17

Full outer join, 263

Functions

- ABS(Value)** function, 269
