**Warning and Disclaimer**

Every effort has been made to make this book as complete and as accurate as possible, but no warranty or fitness is implied. The information provided is on an "as is" basis. The author and the publisher shall have neither liability nor responsibility to any person or entity with respect to any loss or damages arising from the information contained in this book or from the use of the CD or programs accompanying it.

When reviewing corrections, always check the print number of your book. Corrections are made to printed books with each subsequent printing. To determine the printing of your book, view the copyright page. The print number is right-most number on the line below the "First Printing" line. For example, the following indicates the 2<sup>nd</sup> printing of a title.

*First Printing: March 2002*

06 05 04 03      7 6 5 4 3 2

Misprint	Correction
Page 8, second column, first full sentence To purchase a Que book, call 800-428-5331.	To purchase a Que book, call 1-800-382-3419.
Page 161, last bullet Delete last bullet	
Page 215, last sentence in fifth bullet These are called <i>implicit transactions</i> because you don't have to use the CAST or CONVERT functions.	These are called <i>implicit conversions</i> because you don't have to use the CAST or CONVERT functions.

<p>Page 33, fourth paragraph, first sentence</p> <p>When you use tools such as Query Analyzer or the command-line equivalent, <b>ISQL</b>, the tools themselves send the statements to SQL Server in batches, one batch at a time.</p>	<p>When you use tools such as Query Analyzer or the command-line equivalent, <b>OSQL</b>, the tools themselves send the statements to SQL Server in batches, one batch at a time.</p>
<p>Page 409, sentence preceding Figure 7.10</p> <p>The wizard <b>provides</b> a way of specifying advanced options, such as ENCRYPTION or SCHEMABINDING, but does simplify the view creation process.</p>	<p>The wizard <b>does not provide</b> a way of specifying advanced options, such as ENCRYPTION or SCHEMABINDING, but does simplify the view creation process.</p>
