Warning and Disclaimer

Every effort has been made to make this book as complete and as accurate as possible, but no warranty or fitness is implied. The information provided is on an "as is" basis. The author and the publisher shall have neither liability nor responsibility to any person or entity with respect to any loss or damages arising from the information contained in this book or from the use of the CD or programs accompanying it.

When reviewing corrections, always check the print number of your book. Corrections are made to printed books with each subsequent printing. To determine the print number of your book, view the copyright page. The print number is the right-most number on the line below the "First Printing" line. For example, the following indicates that this is the 1st printing of this title and it was printed in May 2003.

First Printing Corrections

Pg	Error	Correction
17	Table 2.1, last description should be changed to:	This template is used to remove the additional permissions granted to users of Terminal Services. By default, additional permissions are used to allow older programs to work properly with Terminal Services. If Terminal Services is not used, this template has no effect.
110	Third paragraph, first sentence: ASR is a two-part process that uses a startup floppy disk to boot the Windows Server 2003 computer ...	ASR is a two-part process that uses a startup floppy disk **and the original Windows installation CD-ROM** to boot the Windows Server 2003 computer ...
138	Exam Alert, last sentence: The is a WLAN-specific exam, so don't ...	The is **not** a WLAN-specific exam, so don't ...
201	First bullet, first sentence: This option configures auditing to occur for user logons and logoffs.	This option configures auditing to occur for user logons.
285	Second bullet: Allows the Windows Server 2003 Professional operating ...	Allows the Windows **2000 and above** operating ...
331	Fourth paragraph, last sentence: Policies are applied following the rules of LSDOU; within a container, they are applied in the link order, with the policy that is listed last being applied last.	Policies are applied following the rules of LSDOU; within a container, they are applied in the link order, with the policy that is listed **at the top** being applied last.
337	Question 19, add to the end of the question:	(Select all that apply)

375	Answer 19: C	**B and** C
380	Question 19's answer should read:	Answers B and C are correct. Although answer A provided the answer Bertram requires, the Group Policy Management Console requires the installation of software. The GPRESULT command line tool and the Resultant Set of Policies snap-in are available by default in Windows XP. Answer D is incorrect because this, too, requires a software installation.

This errata sheet is intended to provide updated technical information. Spelling and grammar misprints are updated during the reprint process, but are not listed on this errata sheet.
