A

Access 2007

- integration with SharePoint, PDF:431-432
- offline options, 343-344, 347-348
- linking to SharePoint lists, 346-347
- moving databases to SharePoint, 345
- publishing databases to SharePoint, 346

accessibility

- of external structured data, 41
- security for virtual team content, 44

adding content

- to blogs, 200-202
- to wikis, 196

administration

- Central Administration, 110-112
- Shared Services Administration, 113
- Site Settings Administration, 115
- types of, 110

advanced searches, 278-279

alerts for searches, 277-278

anchor text, calculating search relevance, 256

announcements, 38

- news versus, 40

application platforms, 54-55

application servers, 116

application templates, 381

applications

- in MOSS 2007, 101
- Web applications, 102

approval requirements for content, 19-20

architecture (2007 Microsoft Office System), 61.
