

# Index

## NUMERICS

### 2D graphics

- arcs, 372-374
- coordinate spaces, 368
- coordinate system, 359-360
- lines, 372
- Map2D applet, 375-377
- polygons, 374
- rectangles, 372
- rendering attributes, 368-371

## SYMBOLS

- [] (braces), 96
- { } (curly braces), 36
- < (greater than), 53
- ! (exclamation point), 55
- !! command (jdb), 643
- != (inequality operator), 82
- != (not equal), 53
- !DOCTYPE declaration, 515
- & (ampersand), 54
- ; (semicolon), 36
- + (plus sign)
  - concatenation operator (+), 57
  - increment operator (++), 52-53
- (hyphen), 52-53
- (minus signs), 45
- O option (javac), 630
- . (period), 67-68
- .class extensions, 627

- /\*...\*/ comment notation, 44
- /\*\*...\*/ comment notation, 44
- // comment notation, 44
- = (equal sign)
  - assignment operator, 38, 41
  - equality operator (= =), 53, 8
- @author tag (javadoc), 635
- @deprecated tag (javadoc), 638
- @exception tag (javadoc), 638
- @param tag (javadoc), 638
- @return tag (javadoc), 635
- @see tag (javadoc), 638
- @serial tag (javadoc), 635
- @since tag (javadoc), 639
- @version tag (javadoc), 635

## A

- abstract classes, 156-157
- abstract methods, 156-157
- abstract modifiers, 156
- accept() method, 463
- access
  - access control, 146-147, 151
  - accessor methods, 152
  - default access, 147
  - inheritance, 151
  - packages, 163
  - private access, 148-149
  - protected access, 150-151
  - public access, 149
- array elements, 92-93
- class variables, 70

- databases, 487
- elements, 234
- instance variables, 67-68
- methods, 153
- MS-DOS, 606
- Notepad, 611
- variables, 153
- vector elements, 227
- accessor methods, 152, 178**
- action commands, 339**
- action events, 339**
- ActionListener interface, 334-336**
- actionPerformed() method, 336, 398**
- actions, JSP tags, 589**
- acyclic gradients, 369**
- adapter classes, 350-351**
- add() method, 227, 254**
- addActionListener() method, 335, 339**
- addAttribute() method, 519**
- addCookie() method, 565**
- addFocusListener() method, 335**
- addHandler() method, 547**
- adding**
  - classes to packages, 163
  - components, 298
    - to containers, 248, 254-256
    - to panels, 313
    - to toolbars, 289
  - elements, 227
  - line separators, 294
  - listeners, 335
  - panels to tabbed panes, 298
  - text to menus, 294
- addItem() method, 266**
- addItemListener() method, 335**
- addition (+) operator, 49**
- addKeyListener() method, 335**
- addMouseListener() method, 335**
- addMouseMotionListener() method, 335**
- addTextListener() method, 335**
- addWindowListener() method, 335**
- AdjustmentListener event listener, 334**
- afterLast() method, 502**
- aligning**
  - components
    - card layouts, 313-314
    - grid bag layouts, 321-323, 329
    - grid layouts, 309
    - insets, 329
    - interfaces, 304-305
    - panels, 313
  - labels, 259
- AllCapsDemo.java application, 428-429**
- allocating memory to objects, 67**
- Alphabet.java application, 306**
- ampersand (&), 54**
- anchor instance variable, 321**
- AND operators, 54**
- animation, controlling with threads, 205**
- antialiasing, 362**
- Apache Jakarta, 517**
- appendChild() method, 520**
- AppInfo application, 632**
  - AppInfo.html, 634
  - AppInfo.java, 632-633
- AppInfo2 application, 636-638**
- Applet menu commands**
  - Clone, 632
  - Info, 632
  - Reload, 632
  - Restart, 632
  - Start, 632
  - Stop, 632
  - Tag, 632
- APPLET tag, 640**
- applets, 10**
  - background colors, 367
  - debugging, 643-644
  - Java Web Start, 382-385
    - applying, 385
    - JNLP elements, 392-394
    - JNLP files, 386-391
    - serve support, 391-392
  - linking, 455
  - Map2D, 375, 377
  - security policies, 241
  - viewing, 631

**appletviewer browser, 631**

AppInfo sample application, 632

AppInfo.html, 634

AppInfo.java, 632-633

Applet menu commands, 632

**applications, 124-126**

AllCapsDemo.java, 428-429

Alphabet.java, 306

AppInfo.java, 632-634

AppInfo2.java, 636-638

arguments

handling, 127-128

passing to, 126

ArrayCopier.java, 107-108

Authenticator.java, 261-262

Averager.java, 127

Border.java, 312

BufferConverter.java, 473

BufferDemo.java, 415-416

Bunch.java, 309-310

ButtonFrame.java, 255

Buttons.java, 255-256

ByteWriter.java, 412

Calculator.java, 340-342

CalorieCounter.java, 203-205

card layouts, 315-320

CGI, 556

ChangeTitle.java, 337-338

CoalReporter.java, 494

CodeKeeper.java, 230-231

CodeKeeper2.java, 242-243

ColorServlet.java, 566-568

ComicBooks.java, 237-240

consoles, 417-418

CopyArrayWhile.java

main() method, 108

output, 108

Counter.java, 579-580

creating, 248

DayCounter.java, 101-103

debugging, 641-643

DiceRoller.java, 396-398

DiceWorker.java, 395

DmozHandler.java, 549-550

DmozServer.java, 548-549

DomainEditor.java, 524-525

DomainWriter.java, 527

EqualsTester.java, 82-83

Feedbar.java, 290

FeedBar2.java, 296-297

Finger.java, 461-463

FormatChooser.java, 343-344

FormatFrame.java, 265-266

FormatFrame2.java, 267

Giftshop.java, 174

Guestbook.java, 586

HalfDollars.java

main() method, 94-95

source code, 93

HalfLooper.java, 105-106

HelloUser.java, 616-617

helper classes, 125-126

HexReader.java, 191-192

HolidaySked.java, 225-226

IconFrame.java, 257-258

Icons.java, 258

Info (dialog box), 282, 284-285

InstanceCounter.java, 153

Item.java, 169-171

ItemProp, 646

KeyChecker.java, 351

LoginServlet.java, 571-572

main() method, 125

Map.java, 375-377

MessagePanel.java, 327-328

MethodInspector.java, 447

MousePrank.java, 348

multitasking, 205

NewFingerServer.java, 478-480

ObjectReader.java, 441

ObjectWriter.java, 437-438

PointSetter.java, 68-69

Presidents.java, 503-506

PrimeFinder.java, 208-209

PrimeReader.java, 421-422

PrimeThreads.java, 210-211

ProgressMonitor.java, 292-293

QuoteData.java, 498-500

RangeLister.java, 119

ReadBytes.java, 410

RefTest.java, 75  
 Rot13.java, 562-563  
 RssFilter.java, 528-529  
 RssStarter.java, 520-521  
 running, 627  
 security policies, 241  
 SeeMethod.java, 447  
 servers, 463-465  
 SimpleFrame.java, 251  
 SimpleWindow.java, 252  
 SiteClient.java, 544-545  
 Slider.java, 286  
 SourceReader.java, 424-425  
 SquareTool.java, 176  
 Stack.java, 308  
 Storefront.java, 169, 172  
 StringChecker.java, 70-71  
 Subscriptions.java, 268-269  
 SumAverage.java, 127  
 SurveyFrame.java, 320  
 SurveyWizard.java, 318-320  
 Swing
 

- applying JNLP elements, 392-394
- creating, 248-253
- graphical, 249
- Java Web Start, 382-385, 391-392
- JNLP files, 386-391
- SwingWorker, 394-399

 SwingColorTest.java, 350  
 TextFrame.java, 363-364  
 threaded
 

- clock, 207
- writing, 206-207

 TimeServer.java, 464-465  
 TitleChanger.java, 337-338  
 TokenTester.java, 65  
 TriviaServer.java
 

- designing, 464
- running, 466

 Variables.java, 42-43  
 VolcanoApplication.java, 22-23  
 VolcanoRobot.java, 117  
 Weather.java, 49-50  
 web, 581-587  
 WebReader.java, 455-457

WordPad, 615  
 XML
 

- applying, 512-514
- creating dialects, 515

### applying

BorderLayout constructor, 311-312  
 BoxLayout constructor, 307-309  
 card layouts in applications, 315-320  
 channels, 471-480  
 cookies, 565-568  
 declarations, 578-581  
 expressions, 574-576  
 FlowLayout constructor, 305-307  
 GridLayout constructor, 309-310  
 Java, 10-11
 

- history of, 10-11
- selecting development tools, 11-12

 Java Web Start, 385
 

- applying JNLP elements, 392-394
- creating JNLP files, 386-391

 JDK, 601-602  
 JNLP elements, 392-394  
 scriptlets, 576-578  
 servlets, 556, 558  
 sessions, 568-572  
 XML, 512-515  
 XML-RPC, 542-545

### Arc2D.Float class, 372-373

### ARCHIVE attribute, 640

### archiving files, 639-640

### arcs, drawing, 372-374

### ArgStream() method, 416

### arguments

applications, 126-128  
 command line, 626  
 commands, 626  
 grouping, 126  
 objects, 64  
 passing to methods, 122-123  
 quotation marks (") in, 126-127  
 register() method, 476

### arithmetic

string, 57  
 operator example, 49-50

**ArrayCopier.java application, 107-108**  
**ArrayIndexOutOfBoundsException exception, 128, 186**  
**arrays, 90, 220**

- boundaries, 92
- creating, 93
- elements
  - accessing, 92-93
  - changing, 93, 95
  - data types, 92
  - grids, 95
- HalfDollars.java application, 93-94
- implementing, 90
- limitations, 220
- modifying, 93
- multidimensional, 95-96
- objects, 91-92
- primitive types, 444
- references, 93
- sample program
  - main() method, 94-95
  - source code, 93
- subscripts, 92
- troubleshooting, 93
- variables, 90-91

**ASCII text, 616**  
**assertions, 202-205**  
**assigning values to variables, 38, 41, 59**  
**assignment operators, 38, 51**  
**associating**

- channels, 471
- components with event listeners, 335
- filters, 407

**AT&T Bell Laboratories, 10**  
**attributes, 569**

- ARCHIVE, 640
- classes, 17-18
- objects, 17
- tags, 388
- XML, 513

**Authenticator.java application, 261-262**  
**autoboxing, 81**  
**AUTOEXEC.BAT, 611**  
**Averager.java application, 127**  
**avoiding exceptions, 200**

## **B**

**background colors, setting, 367**  
**base-8 numbering system, 45**  
**base-16 numbering system, 45**  
**beans, 449**  
**beforeFirst() method, 502**  
**behavior**

- classes, 18-19
- objects, 18
- organizing, 24-30
- shared, 30

**benefits of Java, 11**  
**bits, 221-226**  
**BitSet class, 221-226**  
**blocking, 474**  
**blocks, 96-97**

- statements, 36
- try...catch, 188-190

**boolean data types, 40**  
**Boolean literals, 46**  
**Boolean values, 40**  
**border layout manager, 311-312**  
**Border.java application, 312**  
**BorderLayout constructor, 311-312**  
**boundaries, arrays, 92**  
**BoxLayout constructor, 307, 309**  
**braces ( { } ), 96**  
**brackets ( [ ] ), 90**  
**break keyword, 109**  
**breaking loops, 109**  
**breakpoints, 641**

- deleting, 642-643
- setting, 642

**bridges, 487-489**  
**browser (appletviewer), 631, 633. See also interfaces**

- AppInfo sample application, 632
- AppInfo.html, 634
- AppInfo.java, 632-633
- Applet menu commands, 632

**BufferConverter.java application, 473**  
**BufferDemo.java application, 415-416**

**buffered streams, 413**

- creating, 414
- reading, 414
- writing to, 414-418

**BufferedInputStream() method, 414****BufferedOutputStream() method, 414****BufferedReader() method, 424****BufferedWriter() method, 426****buffers, 413, 467-471****buildRect() method**

- declaring, 129-130
- overloading, 130

**built-in fonts, 361****Bunch.java application, 309-310****ButtonFrame.java application, 255****ButtonGroup object, 264****buttons**

- event handling
  - action events, 339
  - item events, 342-343
- managing, 264
- Swing, 253

**Buttons.java application, 255-256****bytecode, 11, 628****bytes**

- buffer, 469
- data types, 40
- filters, 413
- multiple, 412
- streams, 406-408, 434
  - file input streams, 408-411
  - file output streams, 411-413

**ByteWriter.java application, 412****C****c option (jar command), 639****Calculator.java application, 340-342****calling**

- constructors
  - from another constructor, 133-134
  - methods, 132
- methods, 18, 70-71
  - class methods, 74
  - constructors, 139

finalize(), 140

nesting, 72-73

of objects, 73

start(), 632

stop(), 632

in superclasses, 138

**CalorieCounter.java application, 203-205****capacity**

- checking, 229
- vectors, 226

**capacity() method, 229****card layout manager, 313****cards**

- adding, 314
- applying, 315-320
- displaying, 314
- creating, 314

**CardLayout() method, 314****caret (^), 55****carriage return (character '\r'), 418****case-sensitivity, 39****casting, 77. See also converting**

- boolean values, 77
- data types, 77-78
- definition of, 77
- destinations, 77
- explicit, 78
- objects, 76-77
  - to classes, 78-79
  - to interfaces, 79, 166
- primitive types, 76-78
- sources, 77
- superclasses, 79
- variables, 77-78

**catch blocks, Exception classes in, 190****catch clauses, empty, 201****catching**

- exceptions, 186
- finally statement, 190-191
- try...catch blocks, 188-190

**CD command, 608-608, 618****cells, padding, 329****CGI (common gateway interface), 556****ChangeTitle.java application, 337-338**

**changing array elements, 93, 95**

**channels, 471-475, 477-480**

**char data type, 40**

**characters**

encoding, 470

literals, 46-47, 64
