

## Deleting Email Accounts

If you no longer want to receive email from an account on an iPhone, you can delete it. Of course, the account still exists; you just won't get email from it on an iPhone. You can still use it with an email application, via the web, and so on. (You can restore it to an iPhone by syncing it or by re-creating it manually.) If you just want to temporarily stop using the account instead, disable it as explained in step 3 in the previous task, "Changing Email Account Configurations."

1. Move to the Mail, Contacts, Calendars screen.
2. Tap the account you want to delete.
3. Scroll to the bottom of the screen.
4. Tap Delete Account.
5. Tap Delete Account at the prompt. The account is removed from your iPhone.

### Resurrecting Email Accounts

If the email account you deleted from the iPhone is part of the synchronization settings for your iPhone, it will be added to the iPhone again the next time you sync. To permanently rid of it, you need to remove it from the synchronization settings (see Chapter 4).
