

Syncing iBooks Bookmarks Across Devices

Did you know that if you create a bookmark and have more than one iPad, iPhone, or iPod touch running iBooks, you can sync your bookmarks to all the devices automatically? That way, no matter what device you're using, you'll always be right where you left off. To do this, you just need to change one setting:

1. Begin by tapping Settings on your home screen.
2. Scroll down to iBooks and tap it.
3. Move the Sync Bookmarks slider to On.
