

Sharing Photo Booth Photos

If you really like one of the pictures you've created with Photo Booth, you may want to share it with your friends or family. To do that, tap Photo Booth to open it and then follow these steps:

>>>step-by-step

1. Tap the photo you want.
2. Tap the Action box.
3. Tap the photo you want to share to select it. A blue checkmark will appear on it.

Sharing Multiple Photos

You can share more multiple photos at once by tapping more than one photo in step 3.

4. Tap Email.
5. A new email will open with the photo attached to it. Address and write the email in the way you normally would (check out Chapter 5, "Talk to Me:Texting, Chatting, and Email," if you want a refresher) and then tap Send to share your photo.
